PROFESSIONAL SUMMARY

Computer Science student and Data Analyst with hands-on experience in Python, Pandas, NumPy, Matplotlib, SQL, and Power BI, backed by a data analysis internship at Creativa (NTI). Backed also by a backend Built a strong foundation in C and ASP.NET Core, gaining a solid understanding of how data is structured and served end-to-end. Currently expanding into AI workflow automation with n8n. Looking for a junior data analyst role where I can turn raw data into insights, learn from senior analysts, and grow into a strong data professional.

EXPERIENCE

AI Automation Intern August 2026 – Present *Information Technology Solutions (ITS)* – Cairo, Egypt

- Developing AI-powered workflow automation solutions to support HR and recruitment processes.
- Building and integrating automated workflows using n8n and Docker for development and deployment.
- Applying prompt engineering to improve AI-assisted tasks and workflow interactions.
- Developing practical automation solutions for organizing candidate data and supporting recruitment operations.

Data Analysis Trainee July 2026 – August 2026 *National Telecommunication Institute (NTI) – Creativa Innovation Hubs* – Cairo, Egypt

- Completed practical training in data analysis using Python and data analysis libraries.
- Worked with Pandas, NumPy, Matplotlib, SQL, and Power BI for data preparation, analysis, and visualization.
- Applied data cleaning, exploratory data analysis, statistical concepts, and visualization techniques to real-world datasets.
- Developed a final project involving data preparation, analysis, and interactive Power BI dashboards.

Backend Developer Intern September 2025 – October 2025 *Raya* – Cairo, Egypt

- Developed and consumed RESTful APIs in a real-world enterprise environment.
- Worked on database design and querying to support backend application data needs.

Backend Developer Intern September 2025 – October 2025
Raya – Cairo, Egypt

- Developed and consumed RESTful APIs in a real-world enterprise environment.
- Worked on database design and querying to support backend application data needs.

Full-Stack .NET Developer Trainee October 2024 – May 2025
Digital Egypt Pioneers Initiative (DEPI) – Cairo, Egypt

- Built and deployed RESTful APIs with ASP.NET Core and Entity Framework Core.
- Developed dynamic web applications using MVC architecture (controllers, views, middleware).
- Completed workshops in soft skills, freelancing, client communication, and teamwork.

EDUCATION

Bachelor of Computer Science September 2023 – Present
Faculty of Computer Science, Misr University for Science and Technology (MUST) – Cairo, Egypt
Expected Graduation: June 2027

PROJECTS

EDU-HUB – Online Learning Platform

- Full-stack eLearning platform built with .NET Core, C#, JavaScript, HTML, and CSS.

- Implemented student enrollment in courses, and professor-side course and quiz creation and management.

Price List Products – REST API and Database

- Built a RESTful Web API (GET, POST, PUT, DELETE) over a SQL Server schema with Product and Seller tables, hosted on IIS.
- Developed a client application that consumes the API to retrieve, add, edit, and delete product records.

Library Management System

- Desktop application in C# (Windows Forms) backed by SQL Server, supporting full CRUD on books and members.
- Implemented login / registration, a dashboard, and borrow / return workflows to track library transactions.

Women's Wear – E-Commerce Frontend

- Built a responsive fashion e-commerce frontend in HTML, CSS, and JavaScript, with focus on cross-browser compatibility.

SKILLS

Data Analysis: Python, Pandas, NumPy, Matplotlib, SQL, Power BI, data visualization, basic statistical analysis

AI Automation (Currently Learning): n8n, AI workflow automation, prompt engineering, Docker

Backend Development: C, ASP.NET Core, ASP.NET MVC, Web API, Entity Framework Core, LINQ, RESTful APIs

Databases: SQL Server, MySQL, relational database design, query optimization, stored procedures

Languages: C, VB.NET, SQL, JavaScript, HTML5, CSS3

Tools Platforms: Visual Studio, Git, GitHub, Docker, IIS, Postman

CERTIFICATIONS

- Full-Stack .NET Development Program – Digital Egypt Pioneers Initiative (DEPI), 2025
- Problem Solving Certificate – ICPC MUST Community
- Web Development Certificate – IEEE MUST Community

ORGANIZATIONS

- Member, IEEE Web Development Community – MUST University
- Member, Marketing Community, Enactus MUST University
- Member, Sona' El Haya Volunteering Group

LANGUAGES

- Arabic – Native
- English – Professional working proficiency
